

Ph.D. Students

Center for Secure Cyberspace

Through a targeted investment by the State, Louisiana Tech University has chosen to establish a Center for Secure Cyberspace. The Center is currently seeking Ph.D. students. Louisiana Tech has significant strengths in the areas of cyberspace security, anomaly detection, machine learning, and fusion. Generous stipends are available based on qualifications.

Visit our website at www.csc.latech.edu or contact the Center for Secure Cyberspace at bbrooks@latech.edu for more information
